

PEST

ANALYSIS OF THE MARKET INFLUENCES

P

- Most products are imported and ready for sale, though some face difficulties in Egypt, they are generally available.
- Return policy: personal items can only be returned in case of a clear manufacturing defect.
- There are no strict government restrictions on selling swimming equipment or shipping within Egypt, though future changes in import regulations or customs may affect costs.

Politics

E

- Imported products are affected by the dollar exchange rate, and local products sometimes by transportation costs
- Customers vary: some focus on low prices, others on quality requires a dual pricing strategy to meet different customer needs
- Prices are flexible and suitable for middle income customers and above.

Economy

S

- Education level and lifestyle influence parents' interest in teaching their children swimming
- Increasing awareness of children's health encourages parents to enroll them in sports activities such as swimming.
- Presence of swimming academies in other areas opportunity to expand sales by reaching them.

Society

T

- Online sales are mainly through WhatsApp groups, with no use of social media pages or advertising → digital marketing opportunities are underutilized.
- Technology helps businesses reach a wider audience through online advertising
- No social media ads → social media can be leveraged to expand sales and attract new customers.

Technology

COMPETITORS

Analysis

Strengths

1: Location: The store is located on a main street, which increases its visibility and makes it easier for customers to find and access.

2: Digital presence: Competitors' number of followers on social media is higher.

Weaknesses

1: Lack of specialization: They sell a variety of sports products, not only swimming equipment, so their swimming product range is more limited.

2: Limited offers: They do not provide regular offers or discounts.

3: Variety of models and brands: Are very limited.
